

List of posters

- P-1 D. Binková, L. Střížík, T. Wágner *Chalcogenide phosphors in photonics*
- P-2 M. Božek, M. Olšovský *Comparison of various types cobalt salts in rubber mixtures*
- P-3 A. Burkovičová, Ž. Dohnalová, P. Šulcová *Inorganic pigments based on $YMnO_3$ doped by Nb and Cu*
- P-4 B. Dimzoski, I. Fortelný, A. Ostafinska, M. Šlouf, D. Michálková *Changes in the phase structure of immiscible polymer blends during cooling in quiescent state*
- P-5 M. Dubovský, M. Olšovský, B. Kallo *The resistance of aircraft fuel tanks to bio-fuels*
- P-6 B. Hablovičová, P. Šulcová *Study of Er_2CeZrO_7 by thermal analysis*
- P-7 M. Hájek, M. Milichovský, M. Filipi *Influence of nitrogen oxides on lignocellulosic materials*
- P-8 K. Hájková, F. Potůček, B. Gurung *Alkaline Cooking of Rapeseed Straw*
- P-9 M. Hejdrová, E. Černošková, Z. Černošek, J. Holubová, R. Todorov *Raman spectra and optical properties of Ge-Se-Te thin films*
- P-10 M. Chromčíková, M. Liška, J. Macháček, B. Hruška, V. Zemanová, T. Gavenda *Thermodynamic model and MCR analysis of Raman spectra of $CaO-P_2O_5$ glasses*
- P-11 J. Kocík, M. Hájek, L. Čapek, I. Troppová, L. Smoláková, P. Kutálek *Preparations, properties and using of layered double hydroxides*
- P-12 J. Luxová, M.R. Havlík, J. Trojan, M. Zvonková, M. Trojan *Impact of bivalent cation on the colour and structural properties of malayaite compounds doped by Cr*
- P-13 O. Mikala, J. Gojny, B. Češek, M. Milichovský *The influence of diluted vapours of essential oils on mechanical and optical properties of lignocellulosic materials*
- P-14 R. Pilař, L. Svoboda, P. Honcová, P. Košťál *Heat capacity and thermodynamic properties of antimony trisulphide*
- P-15 P. Pilný, J. Shánělová, J. Málek *Simulation of crystal growth*
- P-16 J. Příkryl, L. Střížík, M. Vlček, M. Frumar *Influence of deposition conditions on the preparation of thin chalcogenide films by pulsed laser deposition*
- P-17 M. Ramaiyan, J. Kulhánek, F. Bures *Synthesis and Properties of Push–Pull Chromophores Based on Pyrrolo[3,4-c]pyrrole-1,4-diones*
- P-18 G. Sádovská, R. Pilař, P. Honcová *Hydrates of calcium and magnesium nitrate as accumulators of energy*
- P-19 O. Škola, B. Jašúrek, J. Vališ, P. Němec *The study of systems cured by free radical and cationic mechanism simultaneously*
- P-20 J. Trojan, L. Karolová, J. Luxová, M. Trojan, P. Luňáková *Colour properties of Sn-Cr doped pigments prepared by different methods*
- P-21 J. Večeřa, I. Šedová, P. Mikulášek, P. Šulcová *An influence of various glazing conditions on color of rutile pigments with Cr and Sb*
- P-22 I. Voleska, T. Wagner, J. Akola, P. Jovari, I. Kaban, R. O. Jones *Ab initio calculations of chalcogenide glasses*
- P-23 M. Vorokhta, P. Mošner, L. Koudelka *Structure-property studies of $Ag_{20}-P_2O_5-B_2O_3-GeO_2$ glasses*
